

UNION UPDATE PAPER

United States of America

Ministers,

By the Power vested in me by the executive of this great nation, on behalf of the men and women and the Almighty himself, I implore you to come by my side and fight the tyranny of our lost brothers of the South.

"Freedom isn't just the absence of conflict, but it is the presence of justice"

Every country at its base is first a family. A Union of ideas, variety, with a sense of collective growth. The nefarious intentions of our unfortunate opposition here have forced us to act like a family and help put our brothers in the right direction. The United States will always stand for the one thing our founding fathers envisioned us to, the truth. Without the presence of truth, The United States will never be a nation which stands against the nefarious intentions of those who stand against freedom and liberty, which makes it even more essential for us to fight this war to strengthen the foundation upon which the framework for our country was laid almost a century ago.

Humanity and the people of the United States in it have come a long way in our understanding of human life and how every single one is valued. The price of a man can only be determined by the courage and compassion he or she holds in their heart, and not in any other way can this be altered.

*In the name of the constitution of the United States and the almighty himself,
Let's come together and make history.*

Abraham Lincoln

(Abraham Lincoln)

*Death is the source of broken bones and Hearts,
Life is our gift.
And war,
It's ultimate counterpart.*

*Independence is not the end,
It is just the beginning.
Only God knows of the end,
Where Assissi brings the mortals' winnings.*
